aged care solutions

streamline your accounts, streamline your work

manad plus is the most comprehensive residential aged care software product on the market today. It records and tracks almost all aspects of resident administration and care documentation.

Our clients were saying to us "We don't like our current billing program and we keep everything about our residents in **manad plus**, so why don't you do bond management and billing?"

This made sense to us too, so now we have developed an optional module to handle your Accommodation bond management and resident billing, **manad plus bond & billing**.

This now makes **manad plus** and **manad plus bond & billing** the most powerful and cost effective aged care management programs on the Australian market.

No other residential aged care software program gives you:

- The ability to optimise ACFI subsidies on an ongoing basis
- Business-to-Business (B2B) claiming with Medicare Australia
- Clinical care tools with detailed analytical reports
- Powerful quality and risk management tools to handle meetings, compliance audits and continuous quality improvement (CQI) plans
- Facility management features for comments and complaints tracking, maintenance and hazards logs and scheduling of tasks
- Employee administration tools for training record logs and police checks
- Accommodation bond management and resident billing

manad plus bond & billing features include:

Accommodation bond management

On admitting a resident to the program our wizard will help you set-up the:

- Agreed bond amount (Lump sum, Periodic payment or Combination)
- Overdue interest rate to be charged
- Interest free period or portion (if any)

Automatically calculated each month are:

- Retentions due
- Interest due on unpaid amounts

There are many reports available from bonds held or outstanding, retentions due, liquidity statements and prudential reporting requirements to ensure compliance with the Department of Health and Ageing (DoHA).

Refunds are easy and accurate. Simply enter the date notice was given, the program then automatically calculates:

- Date refund is due
- Interest payable, both the Base Interest Rate (BIR) and Maximum Permissible Interest Rate (MPIR)
- Refund amount

Resident billing

This area automatically generates all your resident invoices for the billing period, calculating the exact days to charge for:

- Basic daily fees
- Income tested fees
- Accommodation charges
- Extra service fees
- Fixed recurring charges

Simply click a button to distribute invoices by email or send them to the printer for posting.

The resident billing area will also:

- let you create sundry charges
- Create bank files for direct debit transactions (ABA files)
- Receipt invoices
- Manage resident trust accounts
- Export data for importing into finance programs

Reporting is made easy with the ability to preview, print or email reports and filter by location(s), cost centre(s) and the period required.

Contact us now to find out how your organisation will benefit from one of the aged care software solutions offered by **Management Advantage**.
