

manad plus

simple solution, better care

software solutions by

management advantage
aged care solutions

quality software solutions

Management Advantage is a leader in the Australian aged care industry with twenty years of experience providing quality software and consulting solutions.

Working together, our team of experienced software developers and specialist clinical consultants have designed **manad plus**.

manad plus is currently used by more than 200 aged care homes across Australia. From small 30 bed homes to large organisations with more than 1000 beds.

manad plus is the most comprehensive residential aged care software product on the market today.

management advantage
aged care solutions

software developed for nurses, by nurses

Management Advantage plays an active role in the aged care industry. For nearly ten years we have been involved in managing a 120-bed home.

Working closely with our clients and regularly releasing new versions of **manad plus** helps to ensure our software solutions meet the aged care industry's needs.

manad plus features include:

Resident Administration & B2B Claiming

- Resident database
- Admissions and discharges
- Leave, supplements and extra services
- ACFI appraisals
- Waiting list with respite booking
- B2B claiming with Medicare Australia

Resident Care

- 'Person-centred' assessments and care plans
- Progress notes
- Clinical indicators and charts
- Risk and clinical scales
- Adverse events
- Lifestyle participation
- Case conferencing
- Comprehensive Medical Assessments (CMA)

Facility Management

- Comments, complaints and reportable assaults tracking
- 'Noticeboards' for managers, staff and handover
- Alerts and scheduling of tasks
- Maintenance and hazard management
- Links to internal and external reference materials
- Pet register

Quality and Risk Management

- Compliance audits for all 44 outcomes
- Completion of agendas and meeting minutes
- Continuous Quality Improvement (CQI) plan
- Analysis and reporting tools with automatic graphing

Employee Administration

- Employee database
- Police checks
- Training records
- OH&S incident tracking

Data can be entered into **manad plus** from your standard desktop PC or by using mobile devices, such as notebooks and touch-screen tablets. The choice is yours.

Optional manad plus modules:

manad plus bond and billing handles your accommodation bond management needs and creates invoices for resident fees and charges.

manad plus PDA allows charting and entry of clinical indicators via Personal Digital Assistant (PDA) for improved data capture.

Management Advantage are the experts in residential aged care software, but we realise we can't do everything. That's why **manad plus** can interface with other leading software programs which specialise in other aspects of aged care, including medication management, community care, rostering and payroll, and finance.

easy solutions to everyday problems

clinical care solutions

manad plus allows you to create high-quality, person-centred care plans from your own customised assessments. On-screen tools give you easy access to supporting documentation including progress notes, adverse events, clinical indicators and charts to help you complete your assessments. Once you've completed your assessments, **manad plus** automatically updates the resident's ACFI classification.

*"Using the **manad plus** system we have found our assessments and care plans have improved, they are more personalised, scheduling and reviews are easier and take a fraction of the time to complete."*

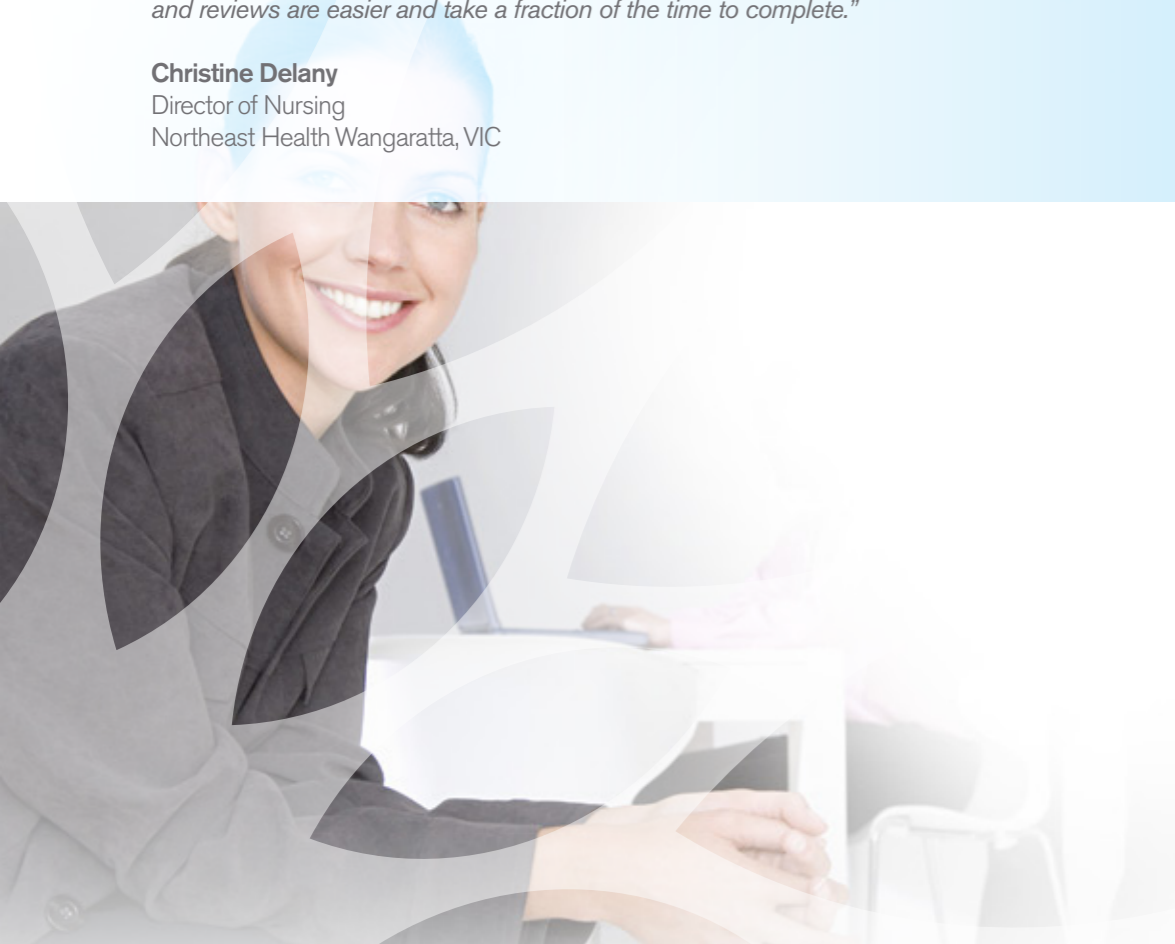

Christine Delany
Director of Nursing
Northeast Health Wangaratta, VIC

administration solutions

manad plus allows you to control the information you send to Medicare Australia by using our secure B2B claiming module. This means no more paperwork or logging onto the website – admission, discharge, leave and ACFI information can be sent by clicking a button. You can check the following day that your message has been received and accepted, which helps make your end-of-month claiming quick and easy.

*"We have commenced B2B claiming with Medicare Australia. Our electronic submissions using **manad plus** have greatly reduced the time spent in completing these processes manually."*

Cheryl Kirby
IT & Administration Manager
Grafton Aged Care Home, NSW

get on top and stay on track

ACFI optimisation solution

manad plus tracks the ongoing changes to the resident's assessed care needs and links them directly to an "in-progress" ACFI score. This unique feature gives you the ability to submit a new ACFI subsidy increase as soon as possible. By tracking each resident's ACFI on a daily basis, **manad plus** helps you to ensure that you're receiving every possible dollar of subsidy. **manad plus** makes ACFI optimisation easy.

*"Management Advantage and their software have helped us greatly to obtain the best results for our ACFI subsidy income and has made us more efficient administratively. Our staff love **manad plus**, which is now an essential part of our operations."*

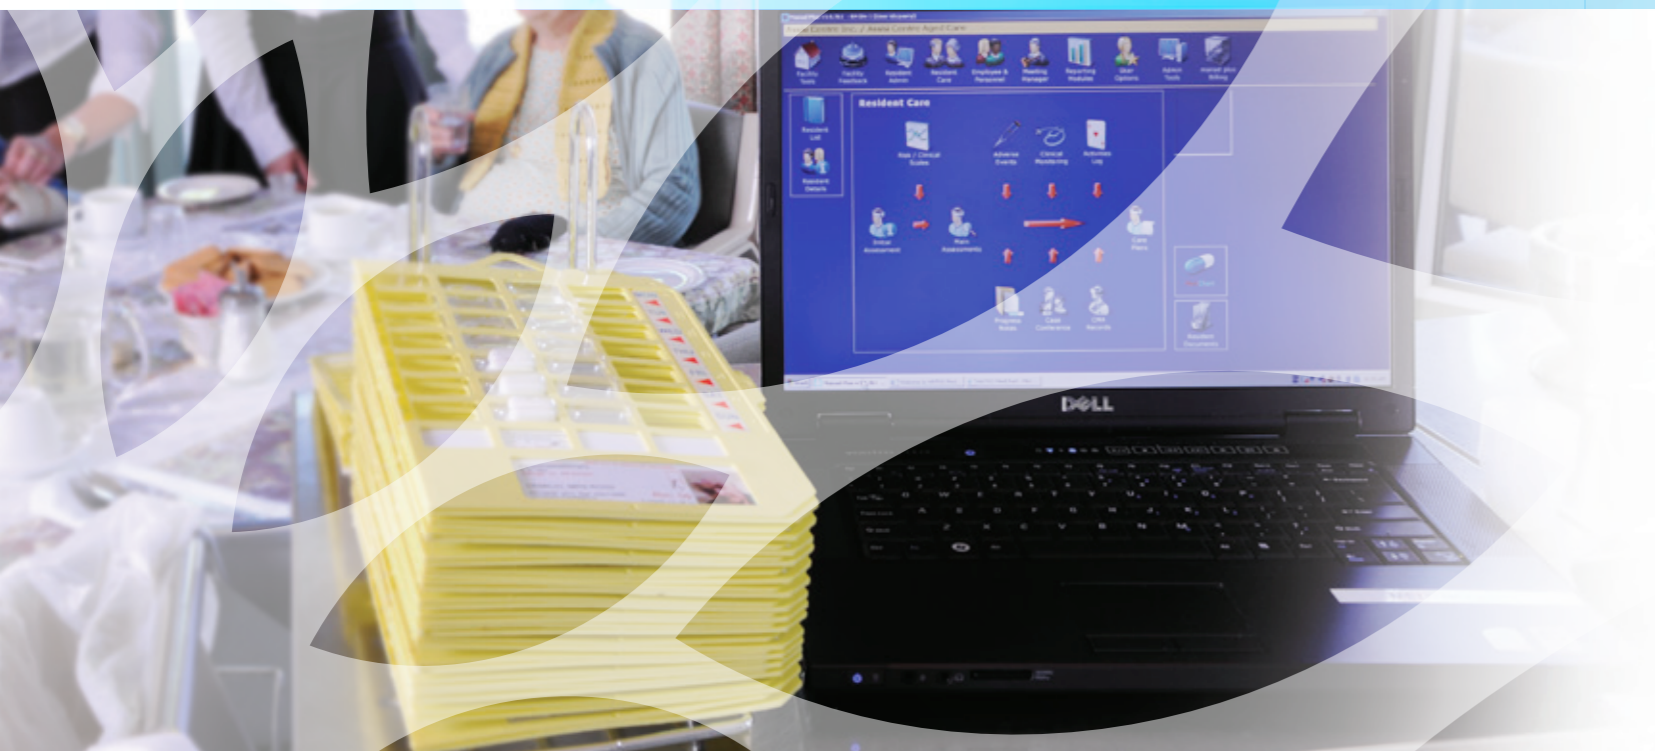

Stan Barker
CEO
Echuca Community for the Aged, VIC

risk management and compliance solutions

manad plus features noticeboards, a COI plan and email alerts. These help you to monitor and track potential risks to ensure you maintain compliance with care and accreditation. Risks can be graphed using a powerful reporting tool that helps you to identify and analyse the who, what, when, where and why. You can use the information captured in **manad plus** to design risk management action plans. Why risk non-compliance when **manad plus** can help you stay on track?

*"One of the reasons we chose **manad plus** was that all its features are linked to each other. You enter information into one area and it feeds into many others allowing you to stay on top of everything."*

Sue Edgar
Systems Project Manager
Wesley Mission, NSW

we're always here to help

quality implementation and training

We're proud of the relationships that we build by working closely with our clients. That's why we work through the implementation process with you to ensure your organisation and staff achieve the best financial and care management outcomes.

Our trainers are highly experienced Division 1 Registered Nurses, who have in-depth knowledge and experience in training staff across all levels of computer ability.

help when you need it most

Our experienced clinical consultants manage our help desk enquiries as well as providing specialist aged care advice and support. This value-added service can assist you with accreditation and compliance issues, clinical care or ACFI subsidy questions.

Our ability to listen is one of the reasons why we produce such successful aged care software solutions. By engaging with our clients we are constantly enhancing our software and support services.

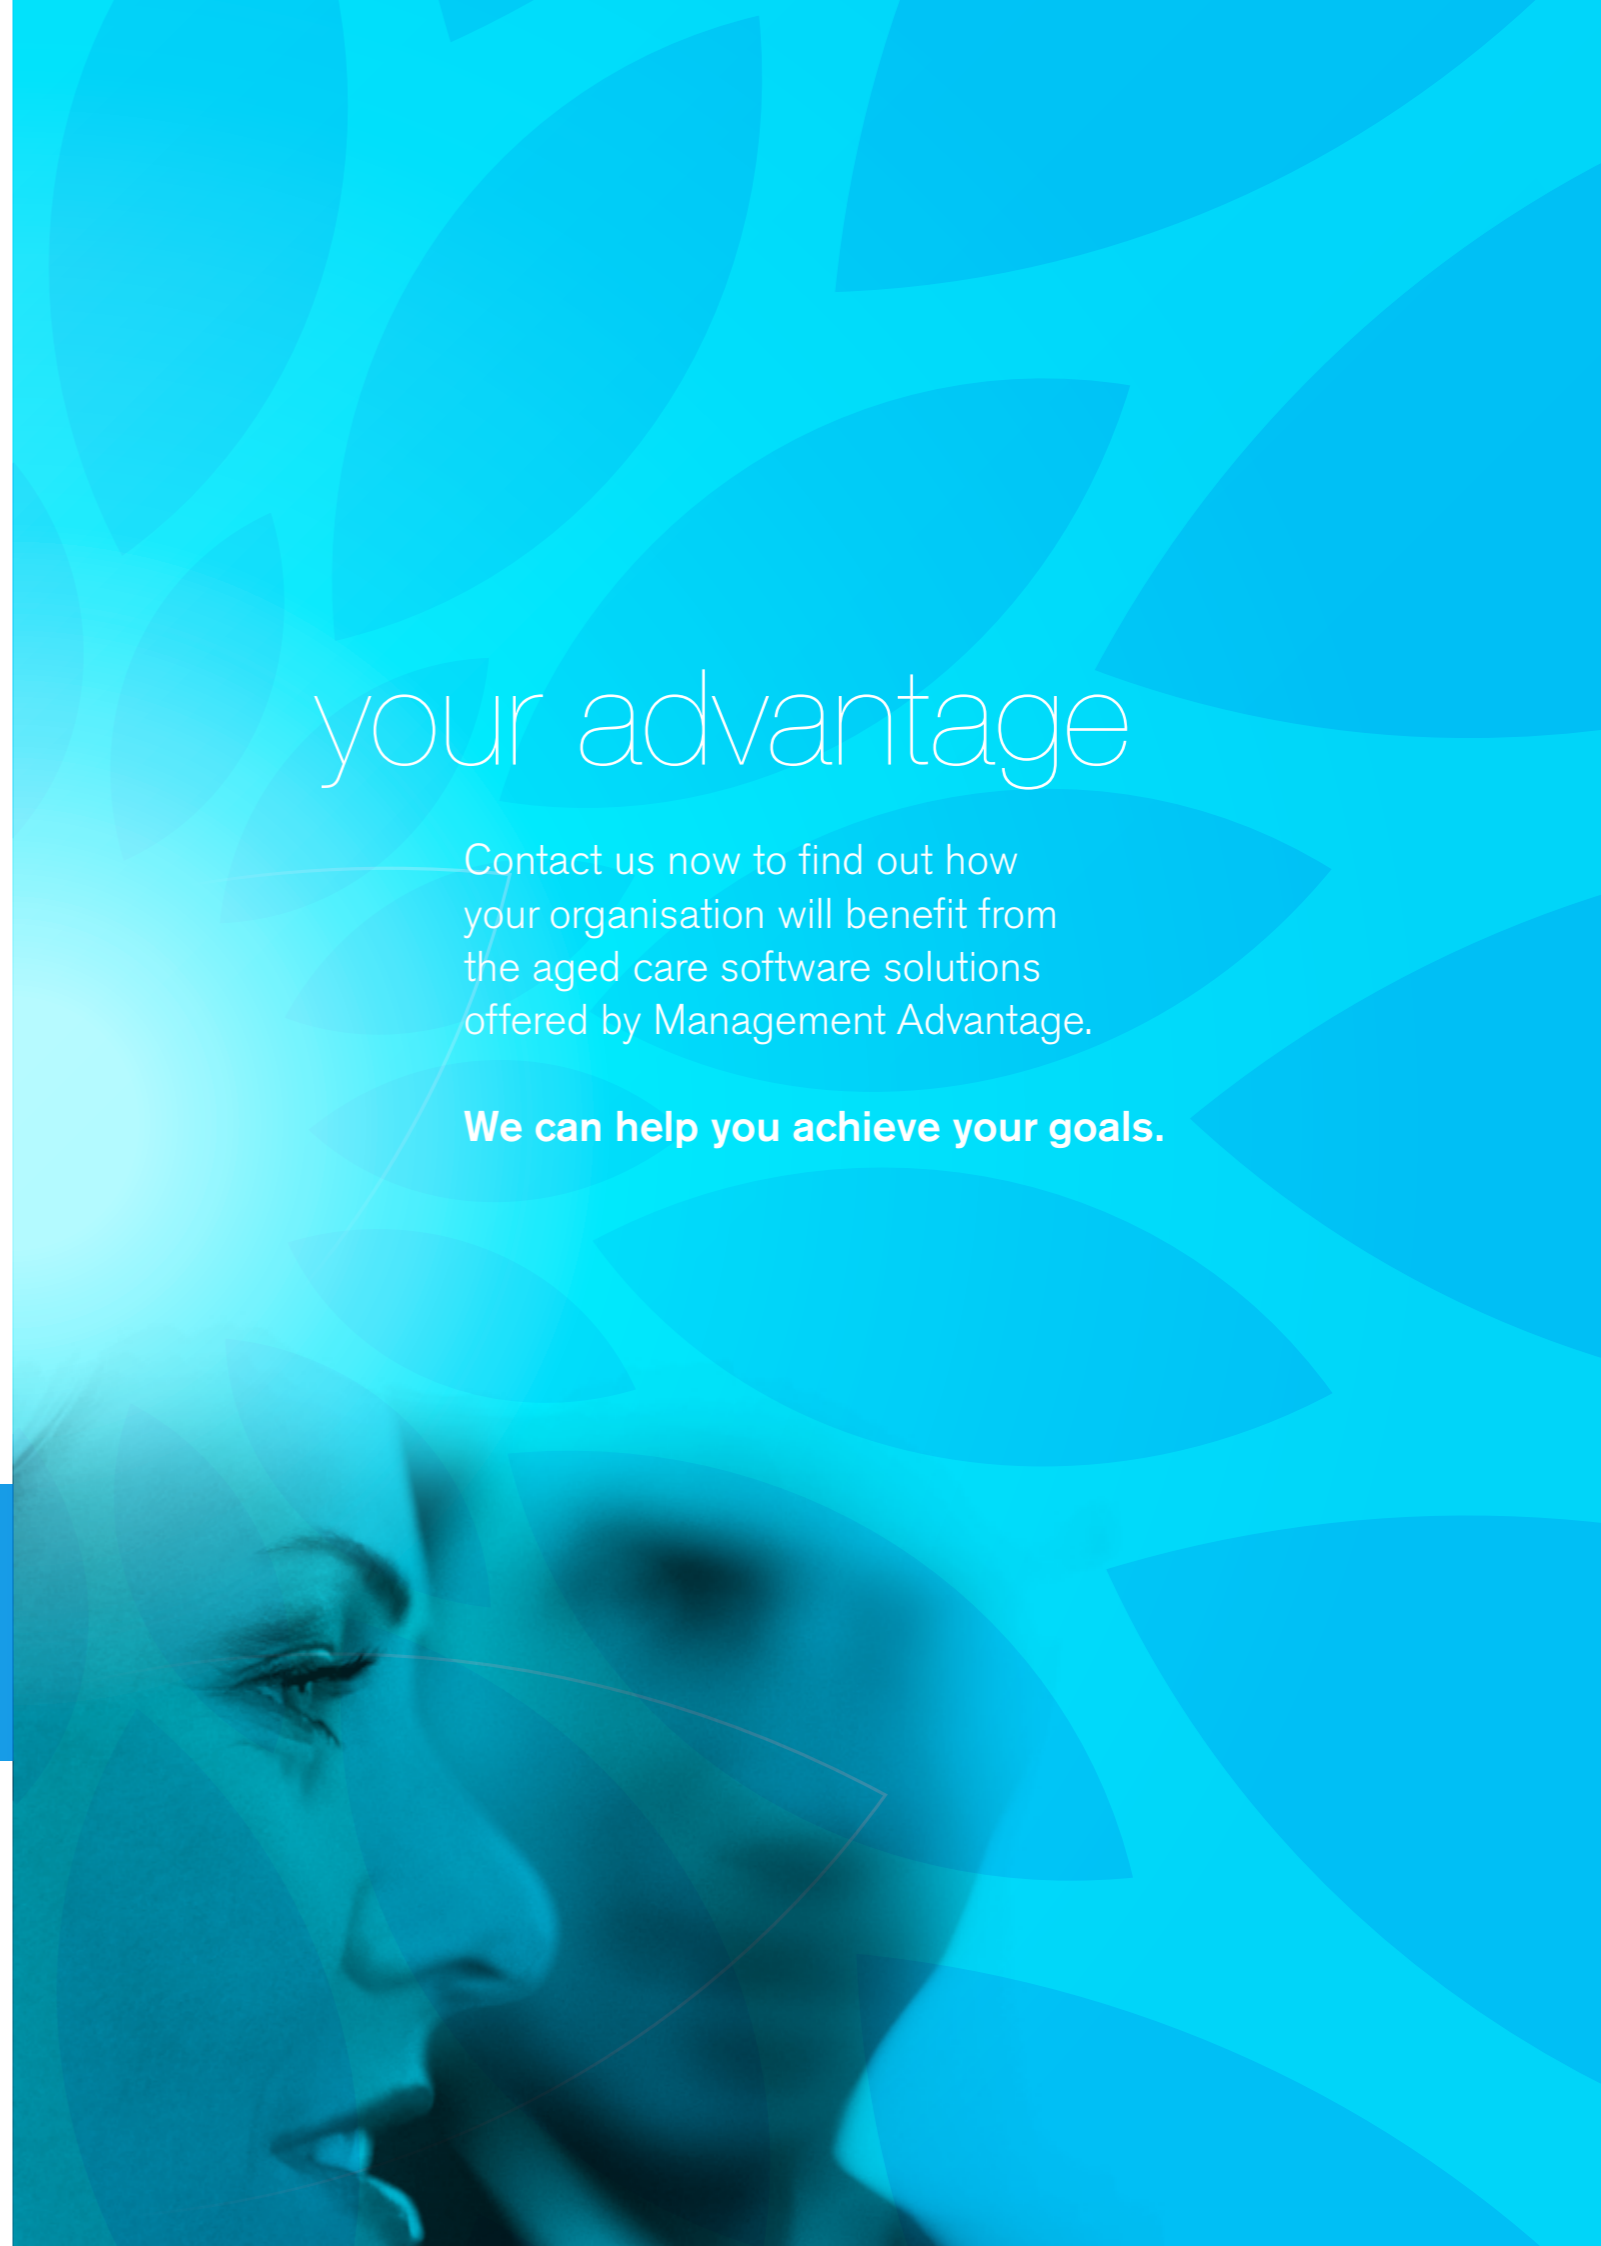

"I am very impressed by the Management Advantage staff for their responsiveness to my queries and assistance with problems/troubleshooting. They even help us with our ACFI and care quality questions. With their service and support, you could hardly expect more."

Ann Kuljurgies
Quality Coordinator
Westmont Homestead, VIC
